Tom: A
A
t's not about having all the people
n the world for you
•
A
t's about knowing that somewhere E
Someone watches over you
A
t's about singing and being able to listen
More than the voice itself
A
t's about dancing in the rain of life
E
That falls on us
D
t is to know if you feel infinite
E In such a vast and beautiful universe
A
To know how to dream
D E
And then make it worth every verse
A
From that poem about believing
A
t's not about getting on top of the world
D
Know that you have won
A
t's about climbing and feeling
E
That the way strengthened you
A
t's about being shelter
D
And also to live in other hearts
A
And so having friends with you
E In all situations
D

Α

We can not have it all

Ε

What would be the grace of the world if it were so That's why I prefer smiles And the gifts that life brought Close to me It's not about all your money D Can buy And yes about every moment Ε Smile to share Α It's also not about running Against the time to always have more Because when you least expect it Ε Life is behind us D Hold your son on his lap Ε Smile and hug your parents Α While here D That life is bullet train partner And we're just passing on D E Α Laia laia laia laia DE Α Laia laia laia laia Hold your son on his lap Smile and hug your parents Α While here That life is bullet train partner

And we're just passing on bullet train
